

SM5142

Sealant tape

An industry standard for either oven or autoclave bonding, composite fabrication and vacuum processing for cure temperatures up to 205°C.

Achieves aggressive initial tack on most available tool surfaces.

Maintains adhesion during low temperature cure cycles and strips cleanly and quickly from mould surfaces below 66°C.

Excellent adhesion to all commonly used bagging films with superb “snap back” properties.

PHYSICAL PROPERTIES

- Maximum Use Temperature	205°C
- Colour	Yellow
- Solids	100%
- Flammability	Not flammable but combustible

AVAILABILITY AND PACKAGING

Roll size	3mm x 12mm x 9.14m
Standard box content	32 rolls

STORAGE AND HANDLING

SM5142 is non toxic, non irritant, and non injurious to skin.

Storing in original packaging with temperature between 5 and 25°C.

Shelf life: 12 months.

Material must be stored flat. Cartons must not be stacked more than 5 high.
