

VII

- 3D knitted resin infusion distribution medium manufactured from HDPE
- Ideal for controlled infusion processes
- Suited for use on multi curvature moulds
- Recommended for use with lower viscosity resin systems due to slower flow capacity compared to grid style mesh
- Suitable for use with all resin systems when used in conjunction with a peel ply (A100FLOGREEN) or release film (A2200HOTOP31251.45)

PHYSICAL PROPERTIES

- Maximum use temperature 100°c
- Colour Blue

Data on flow capacity, areal weight and optimal flow orientation is available upon request.

AVAILABILITY & PACKAGING

- Standard roll size 100m x 1.0m wide
100m x 0.6m wide

A variety of widths are available on request up to maximum width of 1.0m

STORAGE & HANDLING

- No special storage conditions required
